DESIGN FOR EVERY NEW DAY

with **SPOKAR** | X toothbrush

SPOKAR | X

Premium class of SPOKAR toothbrushes is designed based on current recommendations made by dental experts. Unique design is the result of searching for the optimal brush ergonomics ensuring easy handling and perfect teeth cleaning features.

The author of this toothbrush is the leading Czech designer MgA. Petr Novague. For the toothbrush design he has won several international awards.

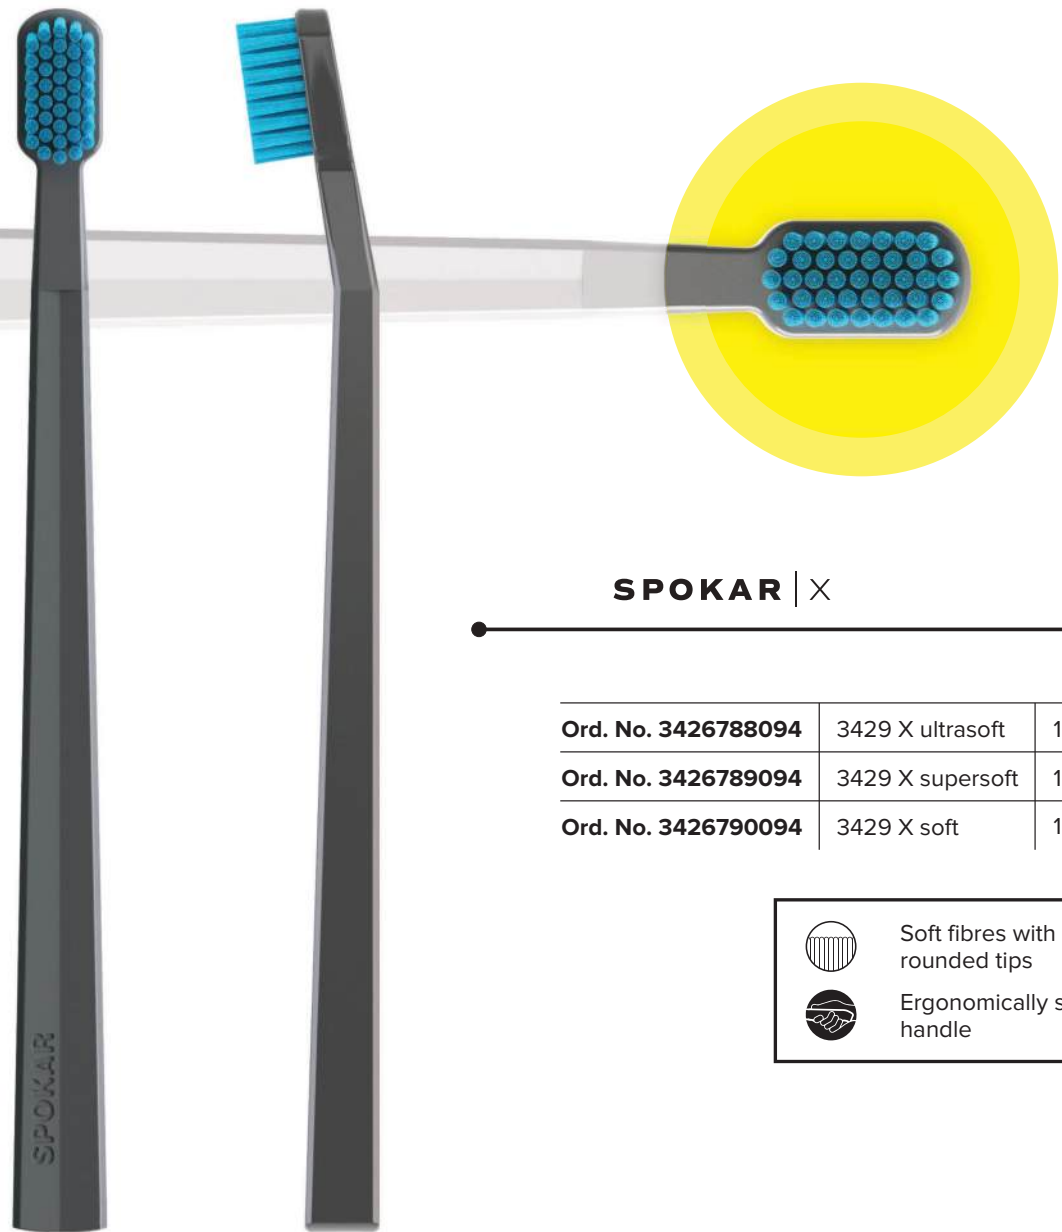

The toothbrush head is very densely filled with high quality soft fibres with end-rounded fibre tips. These fibres effectively remove dental plaque and gently treat your gums.

Spokar X is offered in three different levels of fibre hardness:

| | |
|------------------|---|
| ULTRASOFT | more than 5500 fibres with diameter 0,10 mm very soft, suitable for sensitive gums |
| SUPERSOFT | more than 3500 fibres with diameter 0,12 mm soft and efficient |
| SOFT | more than 2500 fibres with diameter 0,15 mm for the fans of standard soft toothbrushes |

Our offer includes a wide choice of color combinations.

SPOKAR | XM

SPOKAR | XM

The line of SPOKAR XM interdenal brushes was designed by the leading Czech designer Petr Novague. The handle with an X-shaped cross-section is easy and comfortable to hold. It can be rotated to any position so that access to cleaned interdenal space is always as easy as possible.

The brush is made of high-quality rigid stainless steel wire. Special polyamide fibers with a cylindrical shape of trim guarantee effective cleaning of the interdenal spaces and a long service life of the brush.

Two prestigious international Red Dot Design Awards prove the quality of the design. The first for the design of the interdenal brush, the second for the way it is packed.

The brushes are available in four sizes:

- 0,4 diameter 2 mm
- 0,5 diameter 2,2 mm
- 0,6-diameter 2,5 mm
- 0,7 - diameter 3,1 mm

SPOKAR | XML

SPOKAR | XML

SPOKAR XML interdental brushes are designed for thorough interdental cleaning and prevention of periodontitis. They were designed by the leading Czech designer Petr Novague. The essential requirement was that these brushes allow the easiest possible access to the back interdental spaces. The XML interdental brushes add to the SPOKAR's premium line of dental hygiene tools, which includes the X adult toothbrushes, XD children's toothbrushes and XM interdental brushes.

The brushes are available in four sizes:

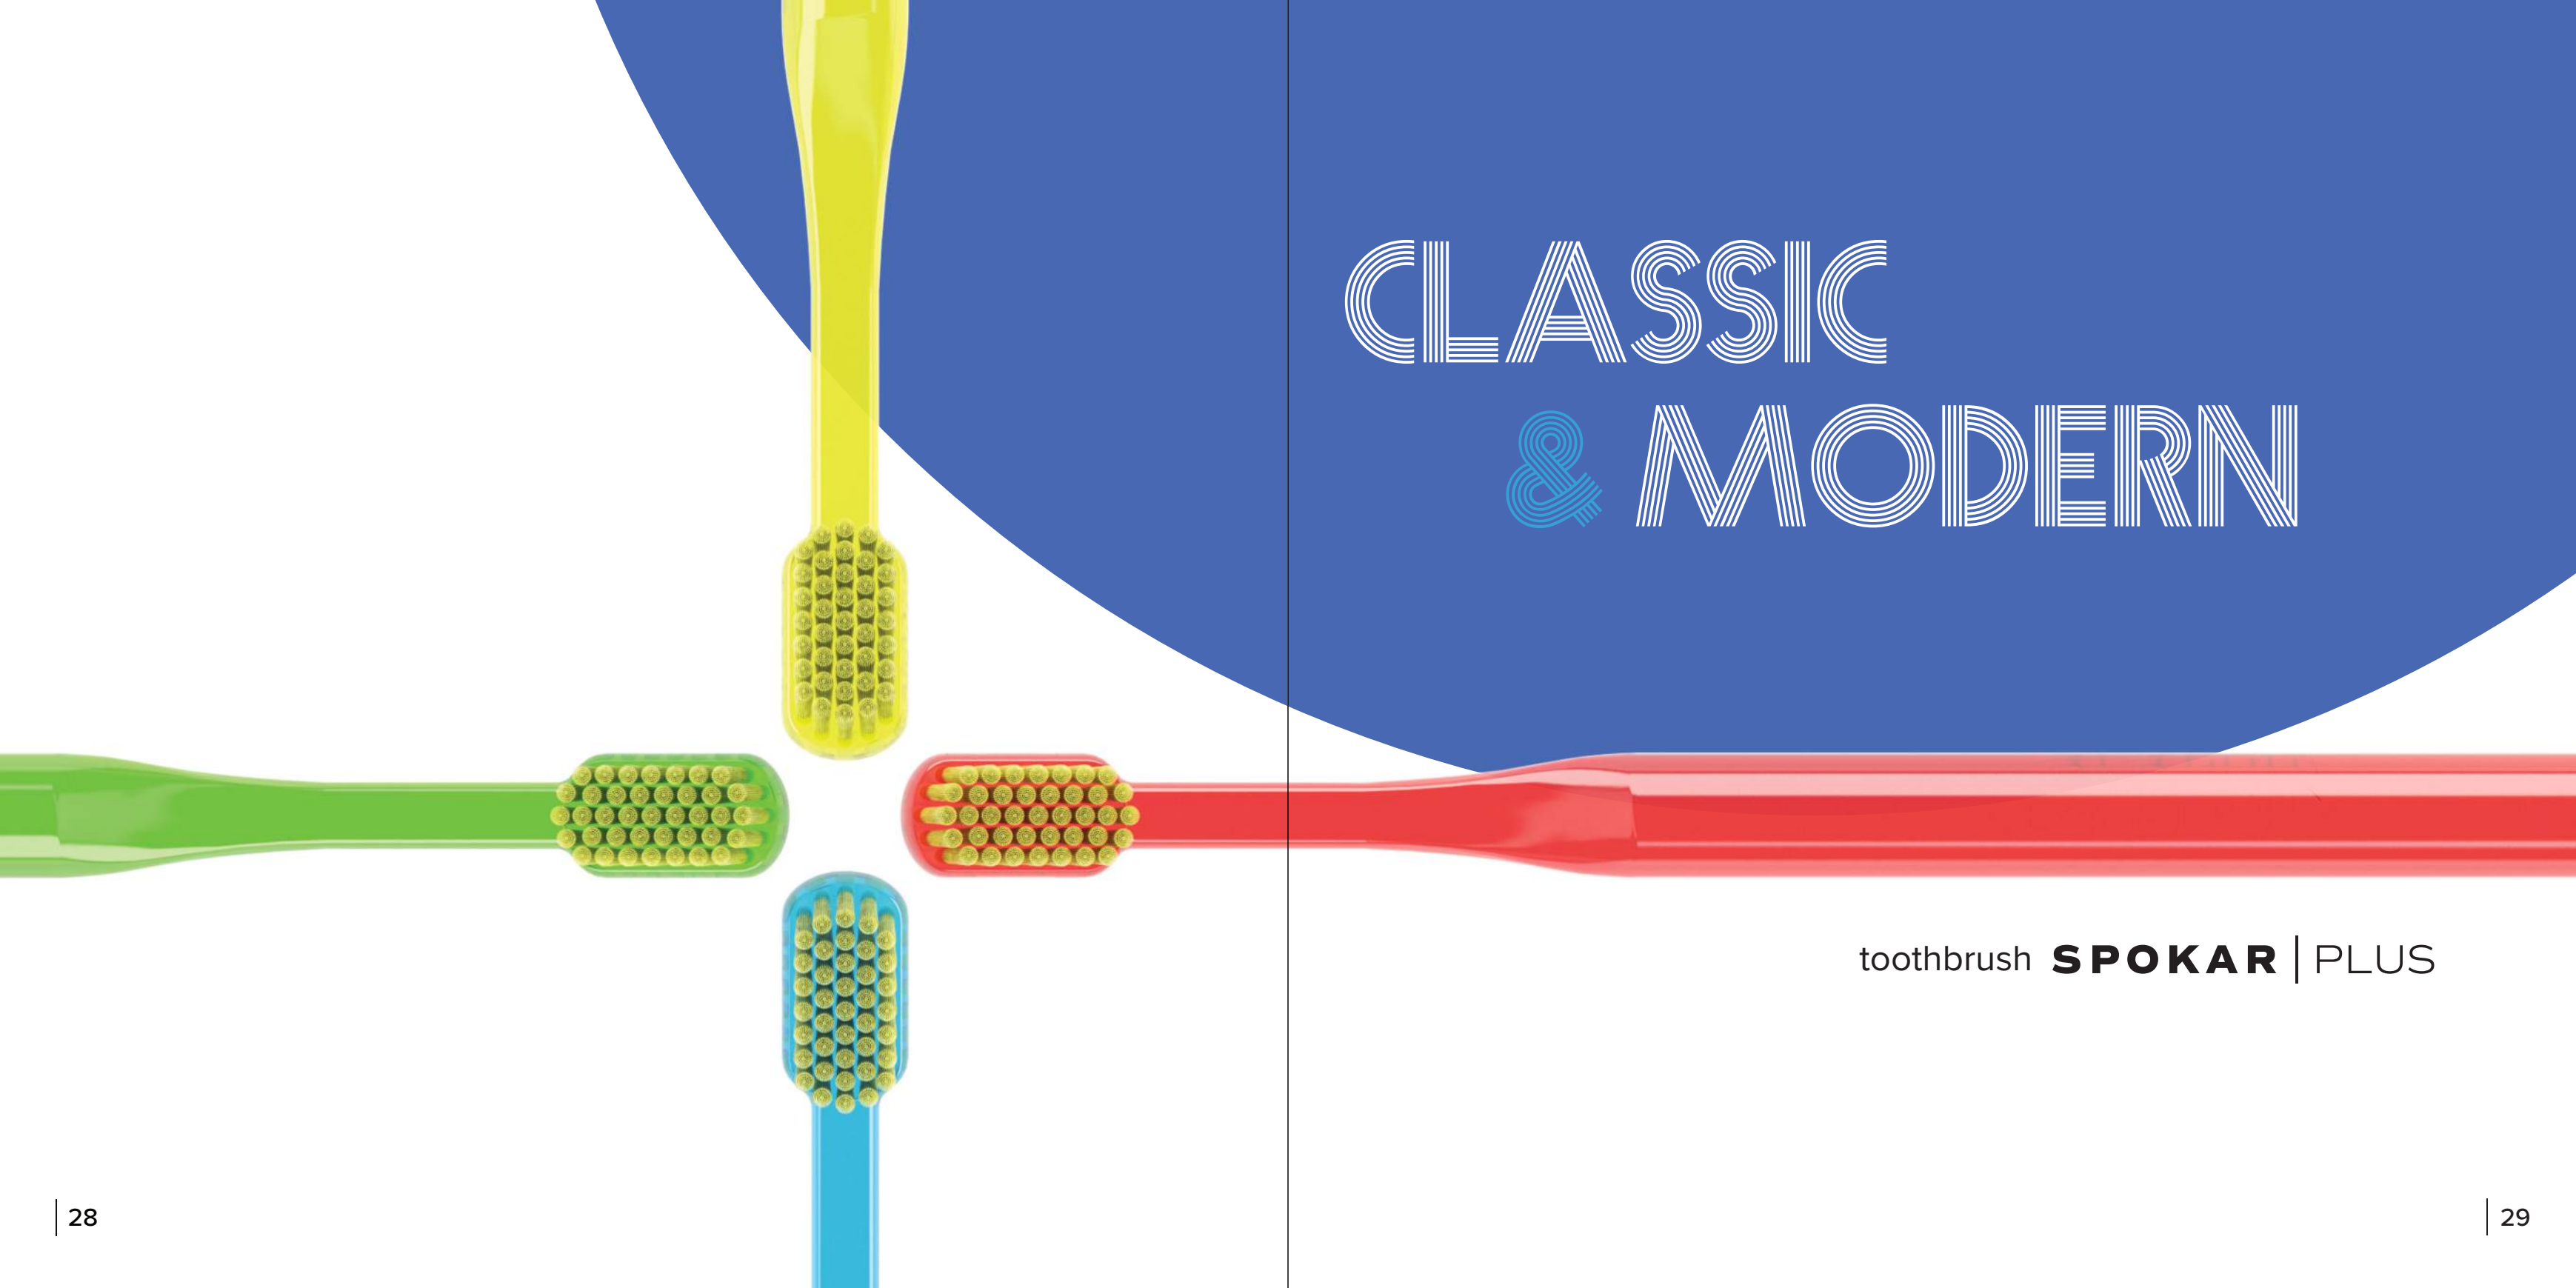

- 0,4 - diameter 2,0 mm
- 0,5 - diameter 2,2 mm
- 0,6 - diameter 2,5 mm
- 0,7 - diameter 3,1 mm
- 0,8 - diameter 4,8 mm
